AutomationDirect K Sequence OPC Server

Kepware's AutomationDirect K Sequence device driver works in conjunction with our OPC Server KEPServerEX, to provide data exchange between OPC Clients and K Sequence PLCs. KEPServerEX automatically optimizes your data acquisition based on client demand. Data integrity is ensured with our extensive error handling.

The AutomationDirect OPC Server

Suite includes:

- AutomationDirect DirectNet OPC Server
- AutomationDirect ECOM OPC Server
- AutomationDirect Productivity 3000 OPC Server
- AutomationDirect K Sequence OPC server

The AutomationDirect K Sequence OPC Driver is also included in the Manufacturing Suite.

AutomationDirect recognizes Kepware and KEPServerEX as their preferred communication company and OPC Server

Plug-in Driver Features:

- Supports Ethernet Encapsulation
- Data can be transferred in arrays of up to 64 V registers
- Memory Types Supported: X, Y, C, SP, T, CT, S, V, GX
- All data types are supported

Protocol

- Koyo K Sequence

Application Support

- OPC Data Access (OPC DA) Versions 1.0a, 2.0, 2.05a, 3.0
- OPC Alarms and Events (OPC AE) Version 1.10
- OPC Unified Architecture (OPC UA) Version 1.01
- OPC Express Interface (OPC Xi) Version 1.00
- SuiteLink and FastDDE for Wonderware
- NIO Interface for iFIX
- DDE Format CF_Text and AdvancedDDE

Supported Devices

- SG Series PLCs
- SL Series PLCs
- DL-05
- DL-06
- DL-105
- DL-230
- DL-240
- DL-250
- DL-260
- DL-350
- DL-430
- DL-440
- L-450

Drivers "Plug-in" to KEPServerEX

The K Sequence OPC Server is a plug-in device driver for KEPServerEX. A "Plug-in" is a software program (.dll) that extends the capabilities of KEPServerEX to fit the communication requirements of a specific device or system. The plug-in driver handles all of the proprietary communications between the device/system and the OPC layer, KEPServerEX. The KEPServerEX core then handles all OPC and Proprietary Client communications between the plug-in driver and the Client application. For a complete list of features and capabilities please visit the KEPServerEX overview page.

- OPC Foundation Certified - The Best of OPC on the Market
- High Performance - Multi Threaded - Runtime Configurable
- Detailed Protocol Diagnostics - Communications Trace
- Detailed OPC Diagnostics - Communications Trace
- Native Interfaces - Client Connectivity Beyond the OPC Standards
- Stratus High Availability Computing - Certified
- Marathon High Availability Computing - Certified
- Kepware 2 Hour Demonstration Mode on all Products
