## Thermo Westronics Ethernet OPC Server

Kepware's Thermo Westronics device driver works in conjunction with our OPC Server KEPServerEX, to provide data exchange between OPC Clients and SV100 and SV180 Data Acquisition systems using TCP/IP. Data integrity is ensured with our extensive error handling. This driver is part of the Thermo Westronics OPC Server Suite.

### The Thermo Westronics OPC Server Suite includes:

#### Suite includes:

- Thermo Westronics Serial OPC Server
- Thermo Westronics Ethernet OPC Server

The Thermo Westronics Ethernet OPC Driver is also included in the Manufacturing Suite.

### Plug-in Driver Features:

- Supports Automatic Tag Database generation to simplify server setup. Selecting model automatically configures the server for the correct tags.
- Blocking Configuration
- Ability to Represent floating point data as either 1x32 or 2x16 format.

### Protocol

- Modbus Ethernet

### Application Support

- OPC Data Access (OPC DA) Versions 1.0a, 2.0, 2.05a, 3.0
- OPC Alarms and Events (OPC AE) Version 1.10
- OPC Unified Architecture (OPC UA) Version 1.01
- OPC Express Interface (OPC Xi) Version 1.00
- SuiteLink and FastDDE for Wonderware
- NIO Interface for iFIX
- DDE Format CF\_Text and AdvancedDDE

### Supported Devices

- SV100
- SV180

**Drivers "Plug-in" to KEPServerEX**

The Thermo Westronics Ethernet OPC Server is a plug-in device driver for KEPServerEX. A "Plug-in" is a software program (.dll) that extends the capabilities of KEPServerEX to fit the communication requirements of a specific device or system. The plug-in driver handles all of the proprietary communications between the device/system and the OPC layer, KEPServerEX. The KEPServerEX core then handles all OPC and Proprietary Client communications between the plug-in driver and the Client application. For a complete list of features and capabilities please visit the KEPServerEX overview page.

- OPC Foundation Certified - The Best of OPC on the Market
- High Performance - Multi Threaded - Runtime Configurable
- Detailed Protocol Diagnostics - Communications Trace
- Detailed OPC Diagnostics - Communications Trace
- Native Interfaces - Client Connectivity Beyond the OPC Standards
- Stratus High Availability Computing - Certified
- Marathon High Availability Computing - Certified
- Kepware 2 Hour Demonstration Mode on all Products
